

LaserBand®

No other I. D. band works as well as LaserBand®. The misidentification of healthcare patients is a medical dilemma that drugs or surgery can't cure. According to a 1999 report by the Institute of Medicine, medical errors are the 8th leading cause of death for Americans - more than motor vehicle accidents, breast cancer or AIDS. LaserBand® wristbands eliminate these errors.

Applications

All-in-one, laser generated, patient identification bracelet with admission labels for hospitals and medical clinics. Custom configuration available upon request.

Features

- Convenient 5-7 hole punching
- Not printer dependent
- Standard 8 1/2" by 11" size with our A4 (8 1/2" x 11 5/8") version available

Markets

- Hospitals
- Medical clinics
- Outpatient surgery centers
- Nursing homes
